FLOUR AND FEED.

GRAIN AND GROCERIES.

Having purchased the extensive Warehouse, Cars, &c, heretofore owned by Samuel Herbst, we beg leave to inform the public that we are continuing the business at the old stand on the corner of Washington and Railroad streets, on a more extensive scale than heretofore.

We are paying the highest market price for Flour, Grain and all kinds of produce.

Flour and Feed, Salt, and all kinds of Groceries, kept constantly on hand and for sale, cheaper than they can be had anywhere else.

Plaster, and all kinds of fertilizers, constantly on hand, or furnished to order.

A regular line of Freight Cars will leave our Warehouse every TUESDAY MORNING, and accommodation trains will be run as occasion may require. By this arrangement we are prepared to convey Freight at all times to and from Baltimore. All business of this kind entrusted to us, will be promptly attended to. Our cars run to the Warehouse of Stevenson & Sons, 165 North Howard street, Baltimore. Being determined to pay good prices, sell cheap and deal fairly, we invite everybody to give us a call.

YOUNG GRIMES.

BY B. P. SHELLABER.

Old Grimes is dead—that good old man,
We ne'er shall see him more;
But he has left a son who bears
The name that old Grimes bore.

He wears a coat of latest cut,
His hat is new and gay;
He cannot bear to view distress—
So turns from it away.

His pants are gaiters—fitting snug
O'er patent leather shoes;
His hair is by a barber curled—
He smokes segars and chews.

A chain of massive gold is borne
Above his flashy vest;
His clothes were better every day
Than were old Grimes's best.

In Fashion's court he constant walks,
Where he delight doth shed;
His hands are white and very soft—
But softer is his head.

He's six feet tall—no post more straight,
His teeth are pearly white;
In habits he is sometimes loose,
And sometimes very tight.

His manners are of sweetest grace,
His voice of softest tone;
His diamond pin's the very one
That old Grimes used to own.

A black moustache adorns his face,
His neck a scarf of blue;
He sometimes goes to church for change
And sleeps in Grimes's pew.

He sports the latest "cab" in town,
Is always quick to bet;
He never knows who's President,
But thinks "Old Tip" is in yet.

He has drunk wines of every kind,
And liquors cold and hot;
Young Grimes, in short, is just that sort
Of man—old Grimes was not.

Agricultural & Domestic.

THE WHEAT CROP.

It will be interesting to many to know that the prospect is excellent for an abundant wheat crop, the next harvest. Although the winter has been extremely cold, the young shoots have been protected by the heavy snows which have covered them. The prospect of a full crop in this section of the State never was better than it is at present, and our farmers, after a partial failure of the past two years, will hail a large wheat crop the coming season with much satisfaction.

FRUIT TREES.

As the season for tree-planting is near at hand, the *American Agriculturist* gives a word of caution against the common practice of ordering large trees. A small, well grown tree, with an abundance of small roots, is greatly to be preferred to a tall, much branched one, with its large roots chopped off in digging. Some of the best western orchardists prefer trees one year from the bud or graft to any other.

Plant whenever the soil is ready, taking care first to trim mutilated roots, and shorten back the top. Planting, the present wet state of the soil considered, will generally be left until next month.

ROTATION IN CROPS.

The physiology of plants is such, says the Rural New Yorker, that scarcely any two of them take from the ground or the atmosphere the same kind of nutriment in equal proportions. Hence it follows that in continuous cropping of the same product, much of the productive power of the soil and of the fertilizers combined with it is lost or remain inert. This loss may be retrieved by a judicious system of rotation, by which means all the elements of growth are brought into successive action and rendered available for farm products.

Perhaps the order of the crops is not of special importance. One might begin a system with corn; follow with oats, then wheat or rye; and then pasture or meadow, according to the tastes or necessities of the farmer. Some lands will do well in pasture for a series of years. So of the meadows, but as a general rule, the best results are attained by changes every three or four years at the most. If oftener made the chances of remuneration are believed to be improved, while the soil as relieved of the thousand noxious plants which impair its vitality without returning anything of value by way of recompense.

DEEP PLOUGHING.

It seems an anomaly to say deep plowing will dry the land in Winter, and keep it moist in Summer, but such is nevertheless the fact. Deep ploughed land being loosened and porous, naturally passes the water off from among the roots of the plants. In Winter the surface freezes sufficiently to prevent the rain which may occasionly fall, and the snow which melts in partial thaws, from penetrating the soil, whilst the under part being loose and porous, is continually draining by gravitation, until the frost penetrates to the full depth of the land ploughed, and which it only does during the absence of snow. With a good coating of early fallen snow, the ground never freezes to a foot in depth, and when the snow lies all the Winter, the drainage still continues. In the Spring the effect still goes on, for the land thaws from the *underside*, as well as the upper, and the drainage still continues, although there will be a crust of frozen ground above it.

In the Summer, on the other hand, the rains fall and penetrate the soil to the full depth ploughed. All surplus water passes off, but from the depth of the moved land enough is retained for the healthy nourishment of the plant. In shallow ploughed lands, the sun heats the soil and drives off by evaporation all moisture. That which constantly arises from the subsoil passes readily off through the shallow heated surface, but in deeply pulverized land there is a considerable portion which acts as a refrigerator or condenser for this evaporating moisture. The effect of the sun cannot penetrate and heat the soil to the depth of a foot. Supposing the sun heats the soil to the depth of four inches to such an extent that the rising moisture will not condense amongst it, the moisture passes off, and is only returned to the growing plants by the nights' dews; but in deeply tilled soil the middle of the tilth, being colder than the surface, retards the evaporation, and creates local moisture sufficient for the use of the plants.

This is shown in any covering crop, such as potatoes, peas, vetches, &c. The stems of these plants shade the soil and prevent the direct action of the sun; while at the same time they form a medium which entangles and condenses the moisture rising from the soil, and they return it to the soil at every change of temperature. For this reason the soil under such crops is always far moister than where a stand-up crop, such as wheat or barley, is grown, the upright stems of which allow the moisture to pass off without condensation. We cannot over-cultivate in the killing and destruction of weeds and thistles, and to attain the various objects above mentioned, in addition we must have the power of cultivating without stint.—*Canada Farmer.*

TURNIPS.

A committee at Guelph, C. W., awarded a prize for a crop of 64,000 pounds of turnips from an acre of land. The second prize was given for a crop of 60,330 pounds. The lightest of five other crops was 52,320 pounds. The committee recommended planting turnips in drills 28 inches apart, and 9 to 12 inches apart in the rows.

☞ The *Agriculturist* says, in reply to a correspondent, that it is as natural for a mare to have foals as it is live, and if she is kept well, she may have a foal every year, as regularly as a cow has calves. Only do not overwork her when she is heavy with foal.

A SERIOUS QUESTION.

At the close of a lecture on physiology before an evening school not long since, the lecturer remarked that any one was at liberty to ask questions upon the subject, and he would answer them as far as he was able. A young lady with much apparent sincerity, remarked that she had a question to ask, though she was not certain that it was a proper question—she would, however, venture to ask it. It was as follows:

"If one hen lays an egg, and another sits on it and hatches out a chicken, which hen is mother of the chicken?"

The lecturer said:

"I will answer you in the Yankee style by asking you a question: If a little, pretty, white, genteel, native pullet sits on an egg, of Oriental extraction, and hatches a great homely, splinter shanked, slab-sided, awkward gaited Shanghai, would you, if you were a pullet, own the great homely monster?"

"No, I wouldn't," said the lady.

"Very well," said the lecturer, "that settles the question, for it is a principle in physiology that hens think and act alike in all essential particulars."

Not So Lucky.—Two persons who had not seen each other for some time met accidentally, and one asked the other how he did. The other replied that he was very well, and had married since they had last met each other.

"That is good news, indeed," said the first.

"Nay," replied the other, "not so very good either, for I married a shrew."

"That is bad."

"Not so very bad, either, for I had fifty thousand dollars with her."

"That makes it all well again."

"Not so well as you think, for I laid out the money on a flock of sheep, and they died of the rot."

"That was hard, truly."

"Not so hard, either, for I sold the skins for more than the sheep cost me."

"You were lucky at any rate."

"Not so lucky as you think, for I bought a house with the money, and the house was burnt down uninsured."

"That indeed, must have been a great loss!"

"Not so great a loss, I assure you, for my wife was burnt with it."

Make 'em heap Good.—A St. Joseph paper relates quite a laughable incident which took place in that city a short time since.—Several persons were immersed by the pastor of the Baptist church, and the novelty of the scene attracted a large crowd, among whom were a number of Indians who looked on in silence. They retired without understanding the nature or the object of the ceremony they had seen; but observing that all the subjects of immersion were females, and getting a vague idea that it was to make them good, the Indians came back a few hours afterwards, bringing with them their squaws. Cutting a hole in the ice, near the same place, they immersed each and all of them, in spite of their remonstrance, being very sure that if it was good for the whites it was good for "Injun."

Not Wanted.—At Peoria, Ill., a lodge of Good Templars sought to exclude from its meetings gentlemen and ladies of the colored persuasion. Those of the lodge who love niggers supremely and white folks only as themselves are slightly indignant, and are going to withdraw. On the other hand if the colored brethren are admitted, others will leave. This puts the lodge in much the same condition that Lorenzo Dow said a certain church constitution placed sinners, and which he expressed by the quaint lines:

"You shall and you shan't,
You can and you can't,
You will and you won't,
You'll be d—d if you do,
And be d—d if you don't."

They evidently don't take as naturally to the mixed process in Peoria, as they might in La Crosse. We should like to see Africa represented in the Good Templars' convocations of this city. Ugh!—*La Crosse Democrat.*

☞ It must have been something of such a day as we have had two or three of, this winter, of which the London Punch says: "The slippery pavements were very trying to all classes. Acrobats tumbled for nothing; bankers lost their balance; farmers grazed their shins; soldiers embraced the flags; tailors measured their lengths; and travelers tripped in all directions."

☞ As all other means to squander the people's money fast enough have failed, Forney, in the Washington *Chronicle*, one of "my two papers, both daily," recommends that the States build houses at Washington for their members of Congress to live in. What next?

NEW HAMPSHIRE ELECTION.

Democratic Gains.—Though the Radicals have carried New Hampshire, the Democratic gains are very handsome. From returns received, the Radicals claim three thousand majority for their candidate for Governor, whilst the Democrats concede only two thousand. The Republican majority last year was nearly five thousand. Of the Assemblymen elected, so far, 27 are Radicals and 25 Democrats, a Democratic gain of 10. The Radical Congressmen are elected, but all by reduced majorities. One trial more, and niggerism will kill the Radical party even in this New England State.

The result in New Hampshire is scaring the Radicals in regard to Connecticut, which votes in April. If the Democrats gain but a quarter as much in the latter as they have in the former, Connecticut will be wheeled into the Democratic column. And there is ground for the hope that so glorious a result will be accomplished.

☞The recent town elections in the State of New York show very decided gains for the Democrats over the vote cast at the same polls last year. The Republican party, so called, exhibited great strength in 1866, but it cannot be denied that it is growing weaker with the people every day.

☞The spring elections in New Jersey have resulted in large Democratic gains. An open negro issue is doing the work. The "Jerseys Blues" won't take *black* Sambo and Dinah to their bosoms.

What Business Men Want.—Said a prominent merchant the other day—"What the country wants is peace—a settlement of difficulties—and without this business men are ruined." This is true at the North and emphatically so at the South. Under the withering influence of partisan intrigues, the industrial system of the South remains paralyzed.—Her rich soil fails to yield its wealth in the necessities of the country. Capital shuns the region that is left desolated as under a curse; and labor shrinks from the dreary prospect of deserted fields and outlawed populations. The best interests of the whole country are suffering that Radical ambition and spite may be gratified.

☞A Radical organ—the Salem (Mass.) *Journal*—under the head of "The Yankee Rules," says: "Although it has taken a long while and cost us a vast amount of money, we have at last got the solid Dutch of Pennsylvania and the verdant 'suckers' and 'buckeyes' of the Western States 'educated up' to our higher law standard. When, a few years ago, they spat upon us—the despised Abolitionists—we determined that the 'nigger' (as they called the colored man) should be made their equals or we would crush the Union. Colored suffrage is now a fixed fact. The foot of the negro is on the necks of our ancient revilers, and those who are not in our toils must stand from under." This is a sample of New England Radicalism. Success is bringing out the inherent but long-concealed puritan tyranny and devilishness of the old Abolitionists who are now the leaders of the Radical party. Are our people prepared to be the instruments of their own undoing?

☞A few days ago a telegram from Rochester, N. Y., stated that two boys named Ellsworth and Wilson started from the city, armed with an old musket and a single-barreled pistol, intending to shoot the first man they met. They jumped into the sleigh of a German named Krafts, near the town of Irondoquoit, and shot him in the head, inflicting a dangerous wound. After their arrest they stated these facts and also that they jumped into several other sleighs before a favorable opportunity presented itself. Forney's Washington *Chronicle*, probably imagining that such cold-blooded depravity could not exist north of Mason and Dixon's line, changed the scene of occurrence from Rochester, N. Y., to "Montgomery, Alabama," notwithstanding that snow and sleighs are not common in that locality, especially on the 24th of February, when green peas are nearly ready to pull.

☞The legal voters of Georgetown, D. C., have brought about an investigation which will soon develope the immense negro frauds at the late election. It has been ascertained that on the last day of meeting the Radical registrars entered but three names of negroes, but when the list came out there were found added the names of 119 other negroes. It is charged that the registrars went to the places of voting on the day of election, after voting had commenced, and added the names of negroes. It is charged, also, that very many darkies from Freedmen's village, Montgomery county, and Alexandria were illegally allowed to vote.

☞The Rump appropriation of $25,000 for the "destitute poor" of the District of Columbia has all been expended, upon the darkies of course, by the Bureau. A circular from that institution announces that "an erroneous impression is prevalent among the freed people of the District, that a further appropriation by Congress has been made for their relief," and agents and officers are commanded to disabuse them of that notion. The poor darks thought, no doubt, that when made citizens and voters, the Government intended to keep them in pocket money also.

☞A gang of Georgetown negroes, the night after the election which made a darkey equal to "any other man," made a raid upon the store of Patrick Donahue, and, after nearly killing the proprietor, carried off a large amount of bacon, brooms, and other property. Four of the "altizens" are under arrest, but as ebony now rules in that city, of course they will escape. What use is freedom to a nigger unless he is allowed to steal?

☞A correspondent appeals "to the Republicans in the North who are willing to listen to reason." When he finds what he wants he will be a good deal older than he now is.

☞One-third of the nominees recently rejected by a Radical Senate were soldiers.

LAND FOR NEGROES.

Sumner, the leader of the Radicals in the Senate, seems to think that the chief end of white men is to supply the negroes with farms. He called up, on Monday, the resolutions he had introduced three or four days previously, one of which reads as follows:

Fifthly—Not less important than education is the homestead, which must be secured to the freedmen, *so that at least every head of a family may have a piece of land.*

Being asked where the government was to get the land to bestow upon the freedmen, Mr. Sumner made the vague answer that "there were several ways of *getting it.*" This is true. One way to get it would be to confiscate the lands of the Southern people and divide them among the freedmen. Another would be to settle them on the public lands, paying their traveling expenses and putting up buildings for them. Still another would be to purchase improved farms for them in the choicest locations in the Northern States—such, for instance, as Lancaster county, in this State.

But can any poor white head of a family who supports Charles Sumner and Thaddeus Stevens, give us a good reason why the Government should provide *farms for Negroes* and not for White men? Have not the poor White men of the North done at least as much to sustain the Government as the ignorant Negroes of the South? What has our boasted *free labor* been worth, if our free laborers are not as well entitled to the paternal care of their Government as the negroes who have performed the despised slave labor of the South?

This matter deserves the earnest consideration of the poor White men of the North. If they do not soon see it in its true light and join hands with the Democracy to arrest the future advance of the Radicals, they will have presented to their eyes the extraordinary spectacle of four millions of Negroes provided with houses and lands by the General Government, while ten or fifteen millions of White people are left to toil on in poverty, stinting themselves in food and clothing in order to pay their taxes.

RADICAL DECEPTION.

The aim of the Radical leaders has been from the beginning *to deceive the people.* They have heretofore shirked the question of Negro Suffrage and Negro Equality, whilst these doctrines were as much a part of their creed as the ten commandments are a part of the Bible.

They have, however, at last seen proper to throw off their disguise and unfurl the black flag that marks the true charter of their craft. Congress, at its last session, established unqualified negro suffrage in the District of Columbia and in all the territories of the United States. It also passed a law excluding the Southern States from the Union until they shall establish Negro Suffrage. These acts, it seems to us, render it impossible for the Radical leaders longer to conceal their real purposes from the people. The issues must hereafter be squarely met. It remains to be seen whether the country will endorse these measures; whether this party of fraud, hypocrisy and lies, can be continued in power after it has cheated and betrayed the great body of its own followers.

MURDER AND CRIME.

Murder and crime have become so rife in this country that it seems as if the smell of blood had given zest to the taking of lives. We could fill our columns every week with *nothing else than murders*, which occur during the interval of our issues, and so accustomed have the people become to this that they never give it a second thought. The recital of the *atrocious acts, in many cases*, are enough to freeze the blood with horror and make us believe we are living in days of licentious butchery, and unless the laws interfere and make a lasting example, a man's life will be but a trifle when it lies in the way of some villain's avarice or malice. Too much of this has been permitted, and we trust such an example will be made as shall strike terror to the souls of the lawless.

BONDHOLDERS, TAKE NOTICE!

Does the bondholder flatter himself that the party which saddled our debt upon us, *professedly from patriotic motives*, will never agree to repudiate it? Listen to Butler, a recognized leader of that party and a member of the Congress now in session at Washington, who said in a recent speech at Albany:—"I have heard of countries, but they are very few, that paid their debts dollar for dollar. *In this country it never will be done.*"

Bondholders, how do you like that? Here distinct notice is served on you by one of the High Priests of Radicalism, that the Government bonds you hold *never will be paid at par.*

☞Rump No. 2, under the dragooning of Ashley and Butler, resolved, on the 7th, that the Judiciary Committee shall go on with the farce of impeachment. Ashley made one of his characteristically blackguard speeches on the occasion, in which the President was called by every ugly epithet and charged with almost every sort of crime. The Speaker, finding that his abuse was failing him, called the fellow to order. Mr. Niblack hoped, before closing up, he would be pleased to clear up those charges of "grave import" which were going the rounds of the papers about himself. Ashley called this suggestion an "impertinence," and was again called to order and compelled to apologize, but he made no explanation or denial of the letters he wrote some years ago in regard to his barter of patronage and speculations in a western territory.

☞Brimstone Brownlow is engaged in quartering bodies of negro State guards in every county in Tennessee to control the next election, and to keep himself in power. European monarchs have not half the power which this Radical despot and villain wields, nor would any European people bear such a yoke as he imposes upon the majority of the people of Tennessee.

☞Col. Geo. W. F. Vernon has been appointed and confirmed as Postmaster at Frederick, Md. Col. V. was a supporter of Congress for some time, but being opposed to negro-suffrage and negro-equality, he has become one of the most ardent supporters of President Johnson's policy.

LETTER FROM HARRISBURG.

HARRISBURG, March 14, 1867.

MR. STAHLE:—Whilst in, and about the vicinity of Harrisburg, I will try to collect a few facts and communicate them to you, according to promise. First and foremost, I shall answer your inquiry—"How is our Damage bill progressing?" This is a rather knotty question for me to answer, not being in the ring of Legislative proceedings while yet in embryo, as your bill is. I, however, made inquiry, and all I can find out is this—after dilly-ing and dallying it about the greater part of the session, it was at last read in place by a Col. Stumbaugh, from Chambersburg, and the Speaker referred it to its appropriate committee, viz:—the committee of Ways and Means. This took place about three weeks ago. There your bill was laid down to take a nap, and from what I can learn, is sleeping yet, and will in all probability, continue to sleep there until after the adjournment of the Legislature. This is only what I collected in a private capacity, not being in the ring, as I stated before.

As I am writing about the Legislature I will further add, that the bill from the Senate inflicting a penalty of $500 for refusing to allow negroes to ride in any cars was considered in the House yesterday. Before it could be debated, up jumps a Republican and moved the previous question, or what is politically called the gag law. This cut off all debate, and the Democrats could neither debate nor amend with any satisfaction. Mr. Boyle, a Democrat from Fayette county, always ready to meet the negro-loving and negro-equality party at the right time and the right place, got in an amendment "that nothing in the act should be construed to allow negroes to enter ladies' cars or berths in sleeping cars." The yeas and nays were called on this amendment, and resulted yeas 37, nays 57—ever yea being a Democrat and every nay a Republican. By this decision *of the Republicans*, Sambo and Dinah can demand entrance into the ladies sleeping cars without any hindrance.

The Connellsville Railroad bill was also disposed of in the House to-day. In this bill the Pennsylvania Railroad took a deep interest, and be it said to the shame of the present Legislature of Pennsylvania, the said Pennsylvania road proved successful over law, justice and equity. The bill was defeated.

A conference of preachers of the Methodist Episcopal church is now assembled in this city. It is said about two hundred and sixty preachers of that denomination are in attendance, besides a number of editors of papers and professors of literary and religious institutions.

Several rafts have passed here down the river. The river is in fine order for rafting, and it is supposed that much lumber will come down this season on account of the favorable winter in the mountains for logging and sawing timber.

The Senate, I see, has passed a resolution to adjourn on the 3d of April. Some of the members of the House laugh at the idea of breaking up that soon, saying that April would not see them at home. The negro takes up too much time to end the session within a reasonable time.

SOJOURNER.

RADICAL CONSISTENCY.

Resolution Introduced into the House of Representatives, at Washington, December 4th, 1862, by Thaddeus Stevens.

"*Resolved*, That if any person in the employment of the United States, in either the legislative or executive branch, should propose to make peace, or should accept or advise the acceptance of any such proposition, *on any other basis than the integrity and entire unity of the United States and their Territories as they existed at the time of the rebellion, he will be guilty of a high crime.*"

The above resolution was offered by Mr. Stevens in the second year of the war, and goes to show what were the sentiments entertained, or at least expressed, by the Radical leaders at that time. *Then*, for any one to advise a peace on any other ground than a complete restoration of the Union as it existed before the war, was rank treason in the eyes of Stevens; *now*, the reverse is the fact, and because President Johnson wishes to bring the Southern States in and restore the "integrity and entire unity" of the Republic, he is denounced as a traitor and threatened with impeachment and removal from office! Such is the consistency of the men who now control the legislation of the country. They are only consistent in their inconsistencies, and are rapidly bringing the country to shame and reproach among the nations of the earth.—*Reading Gazette.*

GREELEY WANTS A VETO.

The following appeared editorially in the New York *Tribune* several days ago:

We have never yet seen any specific vote of the Senate on the naked question of inflation like that given in the House on Mr. Stevens' proposition, and the previous vote of the same body against contraction. In our ignorance we shall be pardoned for expressing our hope that the Senate is wise enough, and resolute enough, to resist the blind and reckless inflationists of the House; and that they will place the seal of their condemnation on the wretched measure in which they were asked to concur.

But should the Senate fail of its duty, we shall turn to the President for a veto upon such mischievous and dangerous legislation, increasing the volume of our paper currency, with the confident expectation that it will be applied.

Horace Greeley calling upon "the President for a veto upon mischievous and dangerous legislation!" Has not the President time and again endeavored to arrest mischievous and dangerous legislation by his veto, and has not the *Tribune* as often applauded "the blind and reckless" fanatics for setting aside his veto? Why it is one of the grounds of the proposed impeachment of the President, that he has refused his assent to such wholesome laws as would enable Ben. Butler to lay in a new stock of spoons. Greeley had better sustain some of the vetoes already sent in by the President, before he calls for another.—*Lancaster Intelligencer.*

Piling On.—Since Geary's advent to power, the salary of the Secretary of the Commonwealth has been increased to the sum of three thousand dollars per annum. Five thousand dollars has also been appropriated to repairs of the Governor's house. Last year the amount expended on the public grounds and buildings at Harrisburg was one hundred and twenty-one thousand dollars. This amount furnished a splendid opportunity for "loyal" stealing. What say the taxpayers? Brethren, let us *prey.*—*National Defender.*

☞Under the provisions of the naval appropriation bill passed by Rump No. 1, says the New York *Tribune*, ten thousand workmen in the navy yards will be discharged the present year. This is the way the Rads take care of the working classes.

☞A letter from Georgia states that since the passage of the Despotism bill Northern men are winding up their business and withdrawing their capital preparatory to leaving the State. Business is consequently becoming completely prostrated.

TOWN AND COUNTY AFFAIRS.

ENLARGEMENT.—We have about concluded to ENLARGE the COMPILER—(but not its price.) There is only one obstacle in the way—the heavy cost of a new Power Press. This *must* be had, or the enlargement cannot be effected. But there is a mode of reaching it, and that not a difficult one.

We have outstanding a considerable amount of money. With that in our pocket, the new Press could be bought—(it can be had only *for the cash*)—and the COMPILER would soon appear as one of the largest country papers in the State.

Come up, then, friends in arrears, to the work! Do so promptly—NOW—without a moment's unnecessary delay.—Send in all you owe, with a little in advance, and as many new subscribers, with $2 for each, as possible. Just place the requisite amount in our hands, and beside having credit on our books, it shall all be spent for your benefit—in getting up a first class paper, in size as well as quality. Give us "A LIFT," fellow Democrats, and we shall certainly succeed. But it must be done *at once*, and by *all* in arrears.

THE SPRING ELECTIONS.—The election in this borough, on Friday last, resulted in the success of the Radicals of course, by about the usual average majority of one hundred. The Radicals must have gotten it into their heads that there was danger ahead for them, as they worked like beavers from morning till night. Anything like a full Democratic turnout during the day would have frightened them "out of their boots."

In Cumberland our friends did nobly, carrying their whole ticket except one School Director, (who was defeated by 1 vote, but will get the post because the two Republican Director candidates are a tie,) and giving Mr. E. G. Trostle, the Democratic candidate for Judge, the unprecedent majority of FORTY-NINE! Mr. T. may well feel proud of so handsome an endorsement.

The Democrats have elected their whole ticket in Straban, as usual.

The Radicals carried Hamiltonban, but by a much reduced majority.

In Franklin the Radicals made no regular opposition, and of course the Democrats swept everything.

The Democrats have *redeemed* Mountjoy, electing their Judge and the rest of the ticket with one exception.

We expect to give the names of the persons elected in the several districts, in our next. From present appearances, niggerism is not likely to prove a winning card for the Radicals in this county.

RAILROAD BUILDING.—We call attention, with pleasure, to the card of Robert Irwin, Son & Co., in another column. We have known Capt. Irwin and son for a number of years, and have in everything found them perfect gentlemen. With large experience in railroad building and railroad running, and being honest, reliable, and capable men, the firm advertised cannot but command public confidence, and any amount of patronage. And such we bespeak for them.

AMERICAN FARMER, BALTIMORE, MD.—In the March number of this Magazine the matter is almost exclusively original—embracing Farm and Garden Work—Improvement of Poor Lands (continued)—Comparative Profit of Large and Small Farms—Farm Wages—Drainage—Phosphates—Hop, and Basket Willow Culture—Barley—Artificial Manures—Uses of Lime—and a variety of interesting topics.

SALE POSTPONED.—The sale of the personal property of Jacob Bushey, Esq., deceased—Wm. McClean, Esq., Administrator—advertised for last Saturday afternoon, was, on account of the bad weather, postponed to 1 o'clock to-day.

SPECIAL NOTICE.—Capt. Norris desires us to say that he is not going to quit the Clothing Business, but will *continue* selling his old stock at cost, and that he has just received a large assortment of Gents' Clothing, Hats, Caps, Boots and Shoes, and Furnishing Goods of ever description. Anything that men and boys wear can be found at the cheap store of Theo. C. Norris.

The Hanover *Spectator* says, it is thought that the Grove family of that place will come in for a large slice.

NEW OXFORD, March 14, 1867.

Editor of Compiler:—The article in this week's *Star*, in regard to the robbery in New Oxford, is incorrect in several particulars, and calculated to do an innocent man injury. The true statement I will give you. Mr. Houser had gone to Petersburg to attend the funeral of Dr. Stewart, leaving his house in charge of his wife. Edward Tully came to the house, drunk, and without taking a meal or securing a bed for the night, gave his money, $82.60, into the care of Jack McLain, a boarder at the house, to keep until the next morning. During the night, McLain in company with another, hired a buggy and decamped for parts unknown.

FOUR MUSKRATS AT ONE SHOT.—A short time since Mr. Daniel Roland, of Manchester township, shot in a meadow near his residence, with a gun, four plump muskrats at a single shot. We doubt whether this has ever occurred before or since. It is seldom so many can be seen at one time; and it is still more difficult to get them in a range.—*York Pennsylvanian.*

What that "something to do" is we have not learned, but certainly traversing the country and delivering lectures in Amazonian style is not the sphere of a refined woman, or of one who has any respect for her sex. It is to be hoped that "gentle Anna" will settle down, and take unto herself a man, even if he should be of the "loyal" hue—*black.*

A Bad Thing for the Senate.—We were sorry to notice during the session of the Thirty-ninth Congress, just closed, a determination on the part of the Senate, which was constantly carried out, to reject the nominations of many worthy, patriotic officers, who had served with fidelity and distinction in the Union armies, merely because they did not acquiesce in all the extravagant measures of the Radical majority. This is simply persecution, narrow-minded and unjust, and cannot be sustained when the matter comes fairly before the people. We hope the Senate of the new Congress will show a brighter record upon the conclusion of the present session.—*New York Herald.*

☞The Rump Senate has rejected the appointment of Hon. Edgar Cowan, as Minister to Austria; also that of John Quincy Adams, a descendant of President Adams, as Naval Officer at Boston. Messrs. Ancona and Severns have also been rejected. The Rumpare determined that Rads shall have the bread and butter or that the wheels of government shall stop.

☞The Radicals are having fine times in Tennessee. They hold the offices and the negroes do the voting. Whites who differ from these favored classes can do neither the one nor the other. What a "glorious land of liberty" Tennessee has become under Radical Brownlow rule!

☞Some English gentlemen with ten millions of dollars cash capital recently arrived in New York en route to the cotton plantations, where they proposed to invest. But finding politics so unsettled they concluded to return home and carry back their money.

This is the way capital is driven from the country by Radical legislation.

☞Hon. Geo. S. Hilliard, of Boston, one of the few true men in that sink-hole of fanaticism, in a recent letter, says: "What we need now is patience, inflexible, invincible patience, that endures and waits. The country is sick with the disease of Radicalism; and this is what the faculty call a *self-limited* disease, which must run its course." And it surely will.

☞In a speech at the State Temperance Convention in Harrisburg last week, Gov. Geary stated that he has not taken a drink of intoxicating liquor for many years. We have some curiosity to see what our cotemporary, the Dispatch, which not long since gave a graphic report of his visit to a German beer saloon in our city, and credited him with offering a now famous toast therein, will have to say about the Governor's statement.—*Erie Observer.*

☞The Radical law requires a five cent stamp to be affixed to marriage certificates to make them legal. Does the lack of a stamp upon such documents invalidate a marriage?

Communicated.

Died, at Petersburg, on the night of the 9th inst., Dr. WM. R. STEWART, in the 65th year of his age, after a painful illness of upwards of five months, during which time he bore his sufferings with christian and becoming resignation. Dr. Stewart was a graduate of the Medical College of the University of Maryland, and was a successful practitioner of nearly forty years. His practice was extensive and consequently laborious, which undermined his health for several years past, by having very severe attacks of rheumatism, which finally terminated in dropsy. His loss to the community will be much felt. As a man he was much and deservedly esteemed, and from the tenor of his life for many years past we have the assurance that he has exchanged this world of woe for a better one in the next.

Communicated.

Died, on the 26th of February last, at Ash Grove, Adams county, Pa., HENRY SPALDING, Esq., in the 78th year of his age.

When one is taken from our midst who, during a long life, has been an example, to those who knew him, of every virtue which should adorn the Christian, it is fit and proper that some tribute should be paid to his memory.

Henry Spalding was born in Frederick county, Maryland, on the 2rd of September, 1789, and resided in Adams county, Pa., for nearly forty years. During that long period, by his kind and gentle manners, by his noble and generous disposition, by his unostentatious charities to the poor, by his heart-felt sympathy and aid ever freely given wherever there was difficulty or distress, he gained for himself the love and affection of all who knew him. Though for the past few years the infirmities of age and failing health rapidly weakened his strength, yet no one approached him without receiving from him a kind and cheerful smile of welcome.

His words were truth, and the man has not lived who guarded more sacredly any trust committed to his charge than did Henry Spalding.

As a man he was upright and honest, as a father of loving children kind and affectionate, and he carried with him to the grave a character of which they may well be proud. But in the hour of trial and grief, their comfort and consolation is, that during his long life, he was exact and conscientious, even to the moment of his death, in the faithful discharge of those virtues and obligations imposed upon him by that Church of which he was such an edifying member.

"Well done, good and faithful servant, enter thou into the joy of the Lord."

May he rest in peace.

A FRIEND.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which will accomplish their cure must prove, as *this has of immense service* to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be *found in the following complaints:*

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often soon cured by this Extract of Sarsaparilla.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn from Disordered Stomach, Pain, or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Neuralgia, and for a Dinner Pill.

They are sugar coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by A. D. BUEHLER, Gettysburg, Pa.

New Life.

"Nothing like it." What everybody says, must be true—hence the general verdict. It always relieves those in pain. Are you nervous, careworn, complain of physical weakness—a general debility which makes those of either sex feel as though they "didn't know how they felt," and wished for something or barbarous nature to arouse them, give fresh vitality, and pour life into them? Use Radway's Ready Relief—the most effectual compound remedy that can be made. To the Dyspeptic, the Rheumatic, and those persons "always ailing," say we the same. It is beneficial to all ages, sexes and conditions. In severe cases of Diarrhœa, Dysentery, use nothing else in arresting the malady, and if you are "shaking away" with Chills and Fever, apply *it externally*, as well as internally, and the result will be marvelous. Thousands upon thousands have been cured. No family need complain of Sore Throats, Croup, Coughs, Headache, Neuralgia, Catarrh, Influenza, Diphtheria—nor mourn and whine over Sprains, Wounds, Bruises, Cuts, Burns, &c., if the Relief be but applied. Have it always in your house, or about you—like millions of families who are never without it. In an attack of Cholera, or Cholera Morbus, it is invaluable. Its virtues are irresistible.

Sold by all Druggists. Price 50 cents per bottle.

A Card to the Ladies.

DR. DUPONCO'S GOLDEN PERIODICAL PILLS FOR FEMALES. Infallible in correcting Irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and always Successful as a Preventive.

It is now over thirty years since the above celebrated Pills were first discovered by Dr. DUPONCO, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with unparalleled success, in every case, and it is only at the "urgent request" of the thousands of ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any Irregularities whatever, as well as to prevent an increase of family when health will not permit it.

ONE PILL IS A DOSE.

Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition lest they "invite miscarriage," after which admonition, the Proprietor assumes no responsibility, although the mildness will prevent any mischief to health, otherwise the Pills are recommended as a MOST INVALUABLE REMEDY for all those afflicting complaints specified in the circular.

ONE BOX IS SUFFICIENT.

10,000 Boxes have been sold within Two Years. Ten Thousand Boxes sent by Mail, both by myself and Agents, to all parts of the world, to which answers have been returned, in which in less say, nothing like the above Pills have been known since the days of Moses. They disarmed upon the world, in Removing Obstructions and Restoring Nature to its Proper Channel, Quieting the Nerves and bringing back the "rosy color of Health" to the cheek of the most delicate.

Price $1 per Box. Six Boxes $5.

Sold by JOHN S. FORNEY, Druggist, Sole Agent for Gettysburg, Pa.

Ladies, by sending him $1 through the Post Office, can have the Pills sent, (confidentially,) by Mail, to any part of the country, "free of postage."

Sold also by J. Spangler, Chambersburg; G. W. Neff, York; Coloman & Rogers and Brown Brothers, Wholesale Agents, Baltimore, and S. D. Howe, Proprietor, New York.

Know Thy Destiny.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a life-like picture of the future husband or wife, of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and addressed envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications secretly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. 223, Hudson, N. Y.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Children's Lives Saved for 50 Cents.

Thousands of Children die annually of Croup. Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venetian Liniment in the house, you need never fear losing your little one when attacked with this complaint. It is now 19 years since I have put up my Liniment, and never heard of a child dying of Croup when my Liniment was used; but hundreds of cases of cures have been reported to me, and many state if it was $10 per bottle they would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Toothache, Sore Throats, Swellings, Mumps, Colic, Diarrhœa, Dysentery, Spasms, Old sores, and pains in the back and chest. No one once tries it who is ever without it. It is warranted perfectly safe to take internally. Full Directions with every bottle. Sold by the Druggists. Depot, 56 Courtlandt Street, New York. Dr. SCHENCK'S MANDRAKE PILLS.

A SUBSTITUTE FOR CALOMEL.

These Pills are composed of various roots, having the power to relax the secretions of the liver in promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious affections in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the Liver, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition.

In short, these Pills may be used with advantage in all cases when a purgative or alterative medicine is required.

Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two likenesses of the Doctor are on the Government stamp—one when in the last stage of Consumption, and the other in his present health.

PHILADELPHIA, U. S. A.

For WHEAT, RYE, BARLEY, CORN, OATS, POTATOES, TOBACCO, BUCKWHEAT, SORGHUM, TURNIPS, HOPS, GARDEN VEGETABLES, and every Crop and Plant.

Especially recommended to growers of STRAWBERRIES, RASPBERRIES, BLACKBERRIES, and all SMALL FRUITS.

More than 13 years of regular use upon all descriptions of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now entirely beyond a mere experiment.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME is eminently a success as a Substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States as a fertilizer that will cheaply restore to the Soil, those essentials which have been drained from it by constant cropping and light manuring.

IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than *bought* Stable Manure, or Peruvian Guano. The Labor involved in its use is far less than that of applying stable manure; while there is no risk from the introduction of noxious weeds.

☞ Farmers are recommended to purchase of the dealer located in their neighborhood. In sections where no dealer is yet established, this Phosphate may be procured directly from the undersigned. A Priced Circular will be sent to all who apply.

Our NEW PAMPHLET, "*How to Maintain the Fertility of American Farms*,"—90 pages, giving full information in regard to the use of manure, &c., will be furnished gratis on application.

Coe's Dyspepsia Cure!

THIS Great Remedy for all Diseases of the STOMACH,
is the discovery of the inventor of Coe's valuable Cough Balsam, while experimenting for his own health. It cured Cramp in the Stomach for him which had before yielded to nothing but chloroform.

The almost daily testimony from various parts of the country encourages us to believe there is no disease caused by a disordered stomach it will not speedily cure.

Physicians Endorse and Use It!

Ministers give Testimony of Its Efficacy!

And from all directions we receive tidings of cures performed.

DYSPEPSIA! It is sure to cure.
HEARTBURN! One dose will cure.
SICK-HEADACHE! It has cured in hundreds of cases.
HEADACHE AND DIZZINESS! It stops in thirty minutes.
ACIDITY OF THE STOMACH! It corrects at once.
RISING OF THE FOOD! It stops immediately.
DISTRESS AFTER EATING! One dose will remove.
CHOLERA MORBUS! Rapidly yields to a few doses.
BAD BREATH! Will be changed with half a bottle.

It is Perfectly Harmless!

Its UNPRECEDENTED SUCCESS is owing to the fact that IT CURES BY ASSISTING NATURE to re-assert her sway in the system! Nearly every dealer in the United States sells it at ONE DOLLAR PER BOTTLE.

THE BEST IN THE MARKET.
THE VICTOR SORGO MILL.

Over Five thousand of these Mills have been made and sold in the last three years. The best recommendations can be given.

Also—COOK'S EVAPORATOR, for making Sugar and Molasses, said to be the best in use.

CORN CRUSHERS.

Three different sizes for grinding Corn in the ear, or shelled—or any other kind of grain. This is a machine that every farmer should have, as a bushel of ground feed is equal to a bushel and a half unground. The high price of feed of all kinds makes an imperative demand for some kind of machinery by which to save. It is a rapid grinder and durable.

BELLS FOR CHURCHES,

SCHOOLS, FARM HOUSES, FOUNDRIES, &c. Made of the best steel composition. Church Bells insured for one year.

WILLOUGHBY'S GUM SPRING DRILL,
WITH CROSSELL'S GUANO ATTACHMENT.

This is considered one of the best Drills now in use. It will distribute any kind of grain evenly, and sow from one bushel up to three to the acre. The Guano Attachment has given entire satisfaction wherever used. It is so constructed as not to clog in sowing any kind of Phosphates or Bone Meal. Having sold a number of these machines last season, I can fully recommend them to be what they are represented. Persons wishing to buy should make application early as the supply is small and the demand great.

F. F. SMITH'S CAST STEEL PLOUGHS.

First, It is the only Plough yet produced that will invariably scour in any soil.

Second, It is now an established fact that It will last from three to six times longer than any other steel plough in use.

Third, It draws lighter than any other Plough, cutting the same width and depth of furrow.

The different parts of the Plough are cast in moulds, into the exact shape desired for the mould-boards, shares and land-sides, giving the parts most exposed to wear any desired thickness. The shares can be sharpened by any blacksmith. The steel is perfectly malleable and works kindly. Edge tools have been made out of pieces of the plough by blacksmiths all over the country.

Drainage Pipes.

THE undersigned has now on hand, and continues to manufacture, large quantities of EARTHEN DRAINAGE PIPES, which he offers at 8 cents per foot at the manufactory. If desired, he will lay the pipes, either water-tight or loose-jointed, at a reasonable compensation. They have been tried in different parts of the county, with entire success. For the drainage of cellars, &c., nothing better can be used. Specimens may be seen at Kalbfleisch's store, in Gettysburg.

The manufactory is in Oxford township, near Lilly's mill. Post Office address, New Oxford, Adams county, Pa.

Brinkerhoff's

CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the *best Corn Sheller* out. They say, 'We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

The National

REAPERS AND MOWERS.
Hoffheins' Patents.

The No. 1 Machine has two Driving Wheels, Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draft and durable, cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Raker and Side Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut Grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels is a Self-Raker and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his left upon a foot-step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine.

All Machines warranted to give satisfaction! For further information apply to

SHIREMAN'S

NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH

Horse Rake!

Patented September 9th, 1862, and Re-issued December 6th, 1864.

This Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the Raking and Discharging, by the driver moving a lever a few inches, which throws it in gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the *Raker has hardly any work to do at all!*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years, and given the best kind of satisfaction.

At the Old Business.

LEWIS KUMMERANT has re-commenced the TAILORING business, in Chambersburg street, between Washington and West streets, Gettysburg, and asks a share of the custom of the public. His long experience in the business enables him to guarantee good fits and good work, whilst the latest fashions will be consulted in cutting whenever desired. No effort will be spared to render satisfaction, and he feels sure that all who patronize him will be satisfied. His prices for work are as low as they can possibly be to afford him an economical living, and no one could in reason ask them to be any less. He asks his old friends to give him a call, as well as the public generally.

DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)

SKIRT.

THE WONDERFUL FLEXIBILITY and great COMFORT and PLEASURE to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in crinoline, not found in any Single Spring Skirt.

A lady having enjoyed the PLEASURE, COMFORT, and great CONVENIENCE of wearing the DUPLEX ELLIPTIC STEEL SPRING SKIRT for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down steps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape, finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against IMPOSITION be particular to NOTICE the skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt.

FOR SALE in all Stores where FIRST CLASS skirts are sold throughout the United States and elsewhere.

Sewing Machines.

THE GROVER & BAKER—THE BEST IN USE. These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money,* and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

NEW FIRM,

AT THE OLD STAND.

[ESTABLISHED IN 1817.]

I have associated with me, in business, my son, John F. McCreary, under the firm and style of D. McCreary & Son, and I desire to say to my old friends and the public generally that since the war, the manufacture of Saddles, Harness, Collars, &c., has been revived at the old established and well known stand on Baltimore street, one square south of the Court House, Gettysburg, Pa.

Having had an experience of 40 years in this establishment, I feel assured, that, with renewed attention to business, we can still further merit and receive a full share of public patronage. DAVID McCREARY.

With increased facilities for conducting our business, we are better prepared than ever to satisfy the wants of all those who may need anything in our line. We especially call the attention of Farmers and others to the superior quality of our

Plain or Quilted Seat Horn Saddles,	Side Leathers, Hames, all kinds, with or without fastenings

Teas! Teas!

TEAS FOR THE PEOPLE. No More Enormous Profits for Consumers to pay. Fifty Cents to One Dollar per Pound Saved by buying your Teas direct from the Importers.

T. Y. Kelley & Co., Importers of Teas, in connection with their large wholesale business, have determined to introduce their Teas directly to consumers at importers' prices, thus effecting a saving to the consumer of 40 to 60 per cent. Families can now club together for any kind or qualities of Teas, in packages of one pound and upwards, and we will send them a superior article of Tea at 5 per cent. above the cost of importation. Let some energetic lady or other person in each neighborhood call upon her acquaintances and take their orders for any of the following named Teas, and when a club of ten, twenty, or more is obtained, send to us and we will send the Teas put up in separate packages, with the name of each person marked on it, all enclosed in one box. As a *further inducement* to the person getting up the club we will send for his or her services, an extra complimentary package on all orders of $30 and upward. It is perhaps not well understood *why* we can sell Teas so very low; but when it is taken into consideration that besides the original cost of importation, the Broker, Speculator, Jobber, Wholesale Dealer and Retailer, has each to reap a large profit, and the innumerable Cartages, Cooperages, Insurances, Storages, &c., which Teas have to pass through before they reach the consumer, will readily explain this. We propose to do away with seven-eighths of these profits and expenses, and it now remains with the *people* to say whether they shall save 50 cents to $1 00 per pound on every pound of Tea they purchase, or be compelled to give their earnings to a host of useless go-betweens.

PRICE LIST.

OOLONG, (Black) 70, 80, 90, $1 00, $1 10, best $1 25 per pound.
ENGLISH BREAKFAST, (Black) 80, 90, $1 00, best $1 25 per pound.
YOUNG HYSON, (Green) 85, 95, $1 00, extra $1 25, superior $1 50 per pound.
MIXED, (Green and Black) 70, 80, 90, best $1 00 per pound.
IMPERIAL, (Green) $130, best, per pound.
JAPAN, $1 00, $1 10, $1 25, best, per pound.
GUNPOWDER, (Green) $1 30, best $1 60 per pound.

COFFEE DEPARTMENT.

We have lately added a Coffee Department to our establishment, and although we cannot promise the consumer as great a saving as we can on Teas, (the margin for profit on Coffees being very small,) yet we can sell Coffees fully 25 per cent. cheaper than retailers charge. Our Coffees come direct from the Custom House, and we roast and grind them perfectly pure, put up in 1 or more pound packages, at an advance of 2 cents per pound.

Our Wholesale Price—Ground Coffees—Pure Rio, 25, 30 cents per pound. Best Old Government Java, 40 cents. Best Ceylon, 40 cents.

SENDING MONEY.—Parties sending orders for less than $30 for Teas or Coffees should send with their order a P. O. Draft or the money, to save the expense of collecting by Express. But large orders we will forward by Express and collect on delivery.

We shall be happy at all times to receive a call at our warehouse from persons visiting the city, whether dealers or not.

A (Bitter) Acrostic.

RESPECTFULLY Dedicated to the Proprietor of the Great Zingari, by a late Dyspeptic.

Far away from the pyramids of Egypt he came,
Restoring the sick, and healing the lame;
A cure for the cholera, that dreadful disease;
Heaven sent him on earth the dyspeptic to ease.
There are those who were troubled with fever and chills,
E'en they took but one bottle and were cured of their ills,
Resolved that in future, if ever they shake,
Such pleasant, nice Bitters—no other they take.
Get a bottle if troubled with nervous debility;
Rahter says it will cure; just try its ability.
Essence of life, then, to young and to old;
A certain preventive from coughs and colds.
Try it all, who are troubled with a weak appetite.
Zest is given by these (Bitters), if only used right;
In scrofula, colic, or a bad diarrhœa,
None who've tried it of either have any more fear.
Great tidings is this, then, for rich and for poor;
A bottle can be had for a dollar (and more—
Rahter gives it to those unable to pay),
In no case of sickness will he turn them away.

F. RAHTER'S GREAT ZINGARI.

WHAT THE ZINGARI BITTERS HAVE DONE.—We publish the following for the benefit of the afflicted everywhere:

"I suffered for a long time of Dyspepsia, Heart Disease, and frequent attacks of Liver Complaint. Often the sufferings were so great that life was almost intolerable. I tried several eminent physicians, and most of the popular remedies recommended for such complaints, but found little relief until a few weeks ago I commenced the use of F. Rahter's Great Zingari Bitters, and am now perfectly cured." HENRY HULL.

Harrisburg City, Pa., Sept. 8, 1866.

Personally appeared the above named Henry Hull, and made oath in due form that the facts are true as above stated.

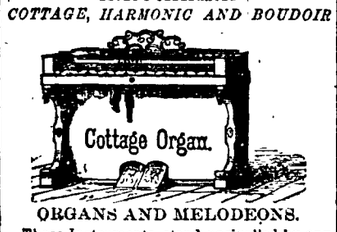
COTTAGE, HARMONIC AND BOUDOIR



ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this Country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounce them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞ BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞ Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

"EMAIL DE PARIS."

THE NEW

Beautifier of the Skin.

TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of polished Ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or blackworm specks, and is especially successful in smoothing out the marks left by the smallpox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as Signora RISTORI,

Mdlle FELICITA VESTVALI,
Miss MAGGIE MITCHELL,
Mrs. D. P. BOWERS,
LUCILLE WESTERN,
Madame PONISI,
Mrs. EMMA WALLER,
LUCY RUSHTON,
NOEMIE DE MARGUERITTES,
Miss A. PERRY,

and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:

"I find that the 'Email' produces all the brilliancy of rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin."

The magnificent Vestvali says:

"I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth."

Miss Maggie Mitchell says:

"I have tried the skin beautifier, 'L'Email de Paris,' and found that it instantly imparts a natural bloom and freshness to the complexion."

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies, producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

THE
PERUVIAN SYRUP

IS A PROTECTED SOLUTION OF THE

Protoxide of Iron,

a new discovery in medicine which STRIKES AT THE ROOT OF DISEASE, by supplying the Blood with its VITAL PRINCIPLE, OR LIFE ELEMENT—IRON.

This is the secret of the wonderful success of this remedy in curing

DYSPEPSIA, LIVER COMPLAINT, DROPSY, CHRONIC DIARRHŒA, BOILS, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Disease of the Kidneys and Bladder, Female Complaints, and all diseases originating in A BAD STATE OF THE BLOOD, or accompanied by DEBILITY, OR A LOW STATE OF THE SYSTEM.

Being free from Alcohol in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor and new life into all parts of the system, and building up an IRON CONSTITUTION.

DYSPEPSIA AND DEBILITY.

From the Venerable Archdeacon Scott, D. D.

DURHAM, Canada East, March 24, 1865.

* * * "I am an inveterate Dyspeptic of more than 25 years' standing."

* * * "I have been so wonderfully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

One of the most DISTINGUISHED JURISTS in New England writes to a friend as follows:

"I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a NEW MAN of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

An EMINENT DIVINE of Boston, says:

"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

☞ THOUSANDS have been changed by the use of this remedy; from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen, and others, will be sent FREE to any address.

☞ See that each bottle has PERUVIAN SYRUP blown in the glass.
